

NorCal Courier & Legal offers a daily-run-discount for our busier clients.

We would schedule a standard pickup time from your office for any court filings and drop serves on opposing counsel (1011's) in San Francisco.

This allows your office the ease of not having to contact us when something is needed and this would also give you complimentary rush service with same day returns on SF court filings.

San Francisco items placed in our daily bucket would be filed and/or served on opposing counsel SAME DAY and charged a discounted rate.

Filings and 1011's for Alameda County may also be placed in the discount-bucket. These will be filed or served the next day and returned that day.

Items for all other bay area courts would be filed in 5 business days at the reduced rate of \$75.

We are also available of course for last minute rush services outside of this daily bucket. Anyone in your office would be free to call us for this as needed. (i.e. early morning Ex Parte filings etc)

Let me know if you have any questions. I look forward to hearing from you.
